

# ERIC LEHMANN

## FULL STACK WEB DEVELOPER

Valencia, Spain

(+34) 624 672 099 | e.lehmann@gmail.com

**Linkedin:** <https://www.linkedin.com/in/eric-lehmann-g/>

**Github:** <https://github.com/elehmann92>

**Portfolio:** <https://elehmann92-portfolio.vercel.app/>

Full stack developer with 10 years of commercial background, strong communication & interpersonal skills, and a customer-driven approach. Specialized in PERN stack: PostgreSQL, Express, React, and Node.js. Experienced in Agile methodologies, GIT, data structures, algorithms, CSS frameworks, relational and non-relational databases. Experienced in developing static and dynamic sites such as landing pages, e-commerce, and Marketplaces. Fluent in Spanish and English.

## PROJECTS

### Moving Out! App – Freelance

Dec. 22 – Feb. 23

#### Freelance

I created a static catalog of items designed to facilitate the sale of my belongings during my move. Conceived as an attractive interface with an intuitive navigation flow and useful features, such as filters, categories, search bar, and modals. The project turned out to be a huge success, as I sold practically everything I posted.

Technologies used: React, Redux, Material UI.

Deployed at: <https://moving-out.vercel.app/>

### JUIRA Marketplace – Lead Developer

Oct. 22 – Dec. 22

#### Henry Fullstack Bootcamp (Academic experience)

I served as the Lead Developer and backend referent for the creation of a second-hand item marketplace using cutting-edge technologies, integrating a payment gateway, reputation management, both self and third-party authentication, and reviews & comments system.

The application was awarded among 50 others for its improved user experience, design, and robust server and database architecture.

Demo: <https://youtu.be/-QiZ2rw-qol>

### SITIS Countries Web App – Developer

Sep. 22 – Nov. 22

#### Henry Fullstack Bootcamp (Academic experience)

I designed and developed solo both the Frontend and Backend for a Single Page App that queries information about countries from an API and presents it interactively. This includes cumulative filters, activity creation, server interaction, and database integration.

Deployed at: <https://pi-countries-elehmann.vercel.app/>

## TECH-SKILLS

Languages	→	JavaScript   TypeScript   HTML   CSS   SQL
Frontend	→	React   Redux   Bootstrap   Material UI

Leadership | Teamwork | Socializing | Customer Orientation | Logical Thinking | Adaptability

## PROFESSIONAL EXPERIENCE

### Full Stack Web Dev

Nov. 22 – Current

#### Freelance, Valencia, Spain.

Creation of landing pages, dashboards, and online applications. Design and development of interfaces, frontend components, and elements, optimizing usability and user experience. Implementation of technical solutions to improve the quality and performance of developed websites and applications. Architecture and maintenance of servers and databases. Collaboration with multidisciplinary teams and clients to analyze requirements, establish goals and priorities, and deliver high-quality final products on time. Impact: Contribution to the creation of digital solutions that allow companies and organizations to connect with their audience effectively, optimizing their processes and improving their online performance.

### Full Stack Teaching Assistant

Jun. 22 – Nov. 22

#### Henry Bootcamp, Buenos Aires, Argentina.

I Coordinated a group of students to ensure their integration into the course process. Also assisted in solving exercises and encouraged collaboration through Pair Programming. Suggested ideas to improve Bootcamp processes and contributed to the development of a more enriching educational experience.
